Open letter to the Greens Members of Tasmania's next Parliament

by email: greens@parliament.tas.gov.au

Dear Members

Congratulations on your election to the Tasmanian House of Assembly as members for the electorates of Bass, Clark, Franklin and Lyons.

Here at *Our Place* we are delighted that the Greens were so staunch in their support for the people and environment of Tasmania throughout the election campaign.

We are especially appreciative that your support extended to our campaign against a new AFL stadium at Macquarie Point

We sincerely hope that your policy in this regard will gain some traction in the new Parliament, where the majority of successful candidates have expressed concern over the redistribution of funds from the State's primary responsibilities in health, housing and education, to a vanity project that will only plunge us further into debt.

We look forward to working with you over the coming months to see this ridiculous proposal finally expunged from the new parliament's agenda.

Yours faithfully

Roland Browne
